# RYAN DEMBOSKI

*Software Developer*

## PROFESSIONAL SUMMARY

Software Developer with 4 years of experience crafting scalable, user-centric applications using ASP.NET and Blazor, seamlessly integrating RESTful APIs and SQL Server. Demonstrates a strong aptitude for innovation and collaboration, enhancing automation and workflow efficiency through cross-functional teamwork. Passionate about driving technological advancements to empower users and streamline processes.

## EMPLOYMENT HISTORY

**SOFTWARE DEVELOPER**                                                                    **May 2023 - Present**
*Northern Arizona University*                                                                         *Flagstaff, AZ*

Developed and maintained <u>ASP.NET</u> applications within a Microsoft Dynamics environment, integrating RESTful APIs and SQL Server to deliver scalable, user-focused solutions. Utilized DevOps for version control and CI/CD pipelines, improving reliability and team collaboration. Streamlined workflows and enhanced automation.

**IT SYSTEMS DEVELOPER**                                                                    **May 2022 - Jan 2023**
*W.L. Gore & Associates*

Contributed to <u>ASP.NET</u> web development and MES software integration, enhancing system functionality and team efficiency. Built Blazor-based interfaces and integrated SQL Server backends to deliver tailored, user-friendly applications. Collaborated with cross-functional teams and maintained clear documentation to support scalable, maintainable solutions.

**.NET INTEGRATION DEVELOPER**                                                          **Jan 2025 - Jun 2025**
*Thermo King West*                                                                                     *Tolleson, AZ*

Implemented integration solutions for .NET applications using custom APIs, Azure Functions, and SharePoint to streamline data exchange and improve interoperability. Automated key processes, reducing manual data entry and significantly boosting accuracy and workflow efficiency.

## EDUCATION

**BS IN COMPUTER SCIENCE**
*Northern Arizona University*                                                                         *Flagstaff, AZ*

GPA: 3.12

Dean's List

## COURSES

**AZ-900 AZURE FUNDAMENTALS**
*Microsoft*

**AZ-204 AZURE CERTIFIED DEVELOPER**
*Microsoft*

## SKILLS

C# *(Expert)*, HTML *(Expert)*, CSS *(Expert)*, JS *(Expert)*, ASP.NET *(Expert)*, Blazor *(Experienced)*, Web Forms *(Expert)*, Razor *(Experienced)*, SQL Server *(Expert)*, APIs *(Expert)*, DevOps *(Expert)*.
